What is the French Network?

The ITI French Network is run by volunteers. We have more than 250 members who translate and/or interpret from French into English or from English into French, always into their mother tongue. We have members based in the UK, France and other French and English-speaking countries around the world. We translate in a wide variety of fields and some of us also belong to specialist translation groups.

The online forum

We have a very lively on-line forum where members can post questions and get help. The variety of subject expertise means help is readily available for anyone who “gets stuck” and, in my experience, people are always happy to help.

Why join the Network?

The Network brings you into contact with other people who share your interests and concerns and who can always be contacted through the e-forum.

Get involved

- Take part in workshops and other events organised by the Network.
- Suggest an idea for a workshop or meeting, or organise one yourself.
- Try to help other members of the Network when you can – especially newcomers.
